

ISOKAT LYNE NAFUNA

SOFTWARE ENGINEER

PROFILE

Detail-oriented Software Engineering student and Full-Stack Mobile Developer proficient in building scalable applications with React Native, Django, and MySQL. Backed by a strong foundation in software quality assurance, testing methodologies, and intuitive UI/UX design. Passionate about leveraging innovative software solutions to solve real-world challenges.

WORK EXPERIENCE

DEPARTMENTAL CLUB SECRETARY

2023-2024

i served as the secretary for my departmental club in the university bringing innovative ideas and keeping good records during this period . Allowing me to interact with different clubs within the department like micro-soft and google clubs

IT ATTACHMENT | BUSIA LAW COURTS

2025

Provided technical IT support and system maintenance to streamline administrative workflows.

ANIMATION

2024-present

Freelance animator, dedicated to using creativity and technology to develop impactful designs that inspire solutions to real-world challenges.

STUDENT ASSOCIATION CLERK

2025-present

Manage official records, draft meeting minutes, and coordinate administrative documentation for the student congress.

PROJECTS

Financial Management Mobile App | React Native, Django REST Framework, MySQL

Engineered a full-stack finance tracker featuring automated expense categorization, real-time fund allocation, and visual analytics.

Built and secured Django REST APIs handling asynchronous user transactions synchronized with a MySQL database.

AI-Powered Chat Assistant Integration | Python, Django, Mobile API

Integrated a conversational AI advisor into a mobile frontend via custom backend API routes, optimizing latency and response parsing.

Developer Portfolio & Showcase Hub | HTML5, CSS3, JavaScript, Git/GitHub

Designed and deployed a responsive personal portfolio hosted on GitHub Pages to showcase mobile applications and technical milestones.

Innovation & Entrepreneurship Prototype ("E-Daktari") | UI/UX Prototyping, Mobile Architecture

Developed a healthcare accessibility solution tailored for underserved communities; showcased scalable prototype design and impact models.
